

Electronic Reprint Guidelines

The electronic reprint is for the sole use of Toshiba and their subsidiaries. You have been granted worldwide distribution rights both for print and electronic (internet and intranet) versions of these reprints. However, you may not alter the files you have been supplied in any way.

The “Editor’s Choice” and “Worth Watching” logo are the exclusive service marks of *Better Buys for Business*.

Better Buys for Business asks you to respect its intellectual property rights and follow these general guidelines when using the reprint.

Please refrain from altering the certificate. Font type and size, dates and logo proportions should not be changed under any circumstances.

Please be accurate. The reprint may be displayed in either color or black and white representations. The color version should be outputted as PMS 186 and black.

Please be precise. Editors frequently give Editor’s Choice and Worth Watching awards to some, but not all, products in a product family. When this occurs, the manufacturers (and/or their agents) should correctly represent this distinction in their promotions. Please also note that this request for precision applies equally to manufacturer endorsements. The logo does not imply a universal endorsement of a manufacturer and should not be used in a manner that suggests it does.

For answers to other questions regarding reprint and logo usage, please call Nicole Riegl at 610-854-6303.
