

# TOSHIBA ONE

Your technology partner of choice

## Managed Technology Services

### Essentials

*Did you know that for most businesses, ICT is the second-largest budget item after employees?*

#### *Toshiba Essentials Features:*

**ICT Health Report:** Receive a quarterly report on the health of your technology, including Network Health, Warranty, and Lifecycle Management reports

**ICT Health Dashboard:** Get a real time view into the status of your business's IT with our enterprise class monitoring & management solution

**ICT Responsive Support:** Our helpdesk and team of engineers are available to assist with all your support needs. Remote support is a click away!

**Toshiba Essentials provides your first line of defense, protecting your IT investment by delivering**

#### **Why SMB's are adopting Managed Services:**

Approximately 7 in 10 end-user organisations today contract with a MSP for some or all of their technology needs, according to a recent survey report published by CompTIA.

The CompTIA study found 46% of the current users of MSPs have reduced their annual IT expenditures by 25% or more as a result of their shift to managed services, with 13% experiencing 50% or more IT savings.

These savings and other business benefits have driven 62% of the current users of MSPs to plan to increase the proportion of their IT operations managed by MSP over the next two years.
