

CERTIFIED TOSHIBA

REFURBISHED PRINT DEVICES

Toshiba provides best-in-class Multi-Function Devices (MFDs).

These MFDs bring digitisation to the forefront, making it easy to print, connect and collaborate. Not to mention the comfort of knowing you've got the same cover as a brand new MFD!

Toshiba's refurbished print devices make your dreams a reality, helping to transform your office.

A manufacturer refurbish keeps you covered, with call out maintenance by highly trained technicians, full Toshiba capabilities and a 5 year quality satisfaction guarantee - the same as we provide on new devices.

Get an MFD that's been restored, recreated and reimagined, without compromising quality.

RESTORED. RECREATED. REIMAGINED.

1 RESTORED

To begin the rebuild, the removal of parts, clean and inspection takes place. All parts are thoroughly checked and parts fitted as necessary.

2 RECREATED

Each area is checked off by manufacturer trained technicians, with thorough testing and changes when needed.

3 REIMAGINED

The updated, refurbished device fits straight into your workplace - with ongoing support and 5 year guarantee.
