

# UNLOCK YOUR INFORMATION

## **e-BRIDGE Capture & Store** OCR edition

- Convert your existing paper archives into searchable, electronic documents.
- Increase productivity by transforming paper and read-only electronic documents into editable Microsoft Office formats.
- Build an ISO-compliant digital archive with PDF/A with embedded metadata.

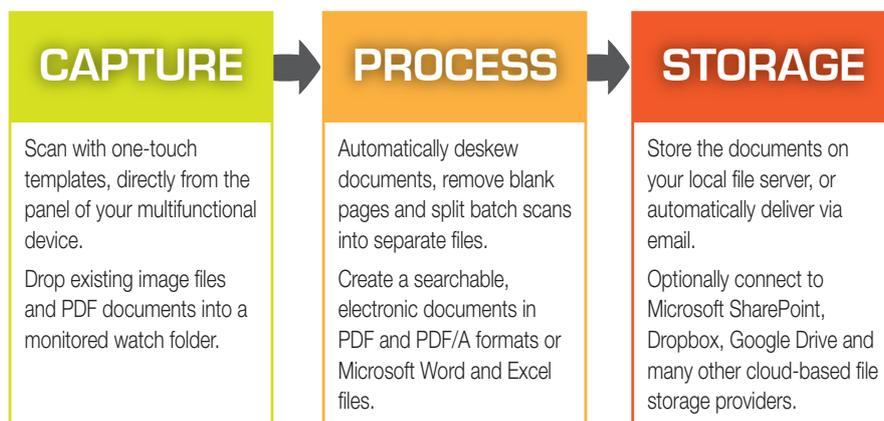

### Convert Paper to Pixels

Imagine the ability to free the information currently locked in your paper documents.

Convert existing paper mountains into streamlined, searchable electronic archives with e-BRIDGE Capture & Store OCR. Increase productivity by transforming paper and read-only PDF files into editable Microsoft® Office formats.

### Simple steps to productivity

e-BRIDGE Capture & Store OCR integrates seamlessly into your existing document flow to improve your efficiency in three simple steps:

### Cost Effective Conversion

e-BRIDGE Capture & Store OCR is a server-based solution which can support an unlimited number of multifunctional devices and desktop computers, without the need for additional licensing.

### The solution which grows with you

e-BRIDGE Capture & Store OCR includes many modular options which can be unlocked when you are ready to take your document processing to the next level. Zonal OCR, barcode recognition, document system and cloud service connectors, intelligent routing and embedded interface can be activated on demand.
