

TOSHIBA

e-BRIDGE Plus Cloud AutoPrint

Simple. Serverless. Effortless printing from the Cloud.

Modern Printing – Without the Complexity

Say goodbye to print servers, drivers, and IT overhead. e-BRIDGE Plus Cloud AutoPrint delivers a smarter, simpler way for small and growing businesses to print—directly from the cloud to your Toshiba MFD.

Designed for organisations with little or no print infrastructure, it enables seamless, automated printing with minimal setup.

Key Benefits

No IT Infrastructure Required

Eliminate print servers, queues, and maintenance costs.

No Drivers Needed

Print from virtually any device—no installations, no compatibility concerns.

Works Across Popular Cloud Platforms

A flexible solution that integrates with the cloud services your business already uses.

Automatic, Hands-Free Printing

Just drop files into your cloud folder and print at your office MFD.

Fast & Easy Setup

Get up and running quickly—without complex configuration.

Advanced Print Flexibility

More control and print options compared to traditional cloud printing solutions.

Why Choose Cloud AutoPrint?

- Ideal for small to medium businesses with limited IT resources
- Perfect for distributed teams and cloud-first environments
- Simple, more flexible, easy to deploy

Transform your print experience

With Toshiba e-BRIDGE Plus Cloud AutoPrint, you can:

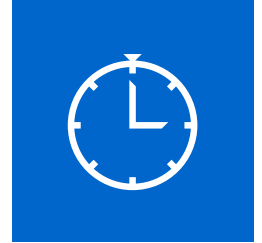

Reduce IT burden

Simplify printing workflows

Enable true cloud-based printing

Improve productivity with minimal effort
