

TOSHIBA

Toshiba is awarded Cerner Certification for the B-EX4T1 label printer

Toshiba is delighted to announce that the B-EX4T1 Industrial printer has been certified by healthcare-systems giant Cerner Corporation for use by its worldwide customer base.

The printer was rigorously tested by Cerner's Technology Certification Lab (TCL), enabling the B-EX4T1 model to connect into any healthcare facility using Cerner systems or software.

Other Toshiba Cerner Certified products:

Toshiba has received Cerner's Technology Certification for the following MFP models:

e-STUDIO2050c, e-STUDIO2550c, e-STUDIO5055c series, and e-STUDIO407cs models.

About Cerner Corporation

Cerner is a worldwide leading supplier of healthcare information technology solutions that optimise clinical and financial outcomes. The Cerner Certification process ensures compatibility with the Cerner application environment.

The process includes development of necessary operating system scripts, installation and support documentation, and training of Cerner support associates.
